Hunter Halvorson

(403) 969-9722 | hhhalvorson@gmail.com | LinkedIn | Portfolio | GitHub

EDUCATION

University of Calgary Sep 2021 – Expected Dec 2026
B.Sc. Computer Science | B.Com. Finance | GPA: 3.6
- Relevant Coursework: Algorithm Design & Analysis, Operating Systems, Computer Networks
- Member of Competitive Programming Club in the Fall 2025 semester

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL, HTML/CSS
AI / ML: PyTorch, scikit-learn, Transformers, LangChain(RAG), LangGraph, OpenAI API, NLP, pandas, NumPy
Tools & Frameworks: Git/GitHub, React, Gradio, ChromaDB, Matplotlib

PROJECTS

SEC Filing Sentiment & Stock Correlation - Python, LangChain, Hugging Face, ChromaDB, yfinance, SQLite
- Pulled 10-K and 10-Q filings from SEC EDGAR and analyzed the tone of Risk Factors and MD&A sections to investigate sentiment correlation with stock price movements
- Converted filings to embeddings via Hugging Face and stored in ChromaDB for semantic search
- Used LangChain to retrieve sections from ChromaDB and generate analysis
- Applied Loughran-McDonald sentiment analysis with yfinance integration for correlation analysis

Semantic Book Recommender - Python, LangChain, OpenAI Embeddings, ChromaDB, Gradio, Hugging Face
- Built a semantic search engine over 7,000+ book titles using OpenAI embeddings stored in a ChromaDB vector database, enabling natural-language queries with genre and emotional tone filtering via a custom emotion classifier
- Deployed as a live Gradio app on Hugging Face; demonstrated end-to-end pipeline from embedding generation to user-facing retrieval

Exercise Classifier - PyTorch, Transfer Learning, ResNet50, Gradio, Hugging Face
- Fine-tuned ResNet50 on a custom exercise image dataset via transfer learning, achieving 99.15% test accuracy across 5 exercise categories
- Deployed as an interactive Gradio demo on Hugging Face; users upload images and receive real-time predictions with confidence scores

ScreenVision AI - Python, Deep Learning, Computer Vision | Hack4Health Hackathon
- Built image classification models for cataracts, pneumonia, early Alzheimer's, and skin cancer with explainable AI overlays and urgency-rated reports, as ML model developer on a 4-person Hack4Health team. Presentation

WORK EXPERIENCE

Financial Management Assistant May – Aug 2023
GWL Realty Advisors
- Performed balance sheet analysis, prepared monthly general ledger and month-end entries, and reviewed and approved purchase orders, contracts, and invoices.

Accounting Assistant Jun – Aug 2025
Canadian Sport Institute – Alberta
- Completed bank reconciliations and processed accounts payable
